Type of Supervision: Supervised Release

Date Supervision Commenced: June 23, 2021

NONCOMPLIANCE SUMMARY

The individual has not complied with the following conditions of supervision:

Violation Number Nature of Noncompliance

1

“You shall refrain from the illegal possession and use of drugs, including prescription medication not prescribed in your name, and the use of alcohol, and shall submit to urinalysis or other forms of testing to ensure compliance. It is further ordered that you shall submit to evaluation and treatment, on an outpatient or inpatient basis, as approved by the U.S. Probation Office. You shall abide by the rules of any program and shall remain in treatment until satisfactorily discharged by the Court. You shall alert all medical professionals of any prior substance abuse history, including any prior history of prescription drug abuse. The Probation Officer shall supervise your compliance with this condition.”

On February 21, 2022, Price reported to Integrity House for his substance abuse treatment session. A urine specimen was secured, which confirmed positive for cocaine. On February 22, 2022 and March 8, 2022, subsequent urine specimens were collected, which tested negative for all illicit substances.

On March 3, 2022, the undersigned officer met with Price to discuss the positive urine specimen results. Price denied consumption of cocaine, as well as any other illicit substances. Price was informed his treatment plan would not be reduced until he maintained continuous sobriety.

U.S. Probation Officer Action:

On September 15, 2021, Price was successfully discharged from inpatient treatment, and he continues to attend outpatient treatment program at Integrity House. Price was scheduled for three (3) groups and individual session weekly. On December 6, 2021, he submitted a urine specimen which confirmed positive for cocaine. Due to Price's relapse, his testing was increased to two (2) times per week.

Due to Price's sobriety, his counselor recommended his treatment plan be reduced from three (3) to two (2) groups per week; however, Price submitted a urine specimen on February 21, 2022, which tested positive for cocaine, and therefore, his treatment plan was not reduced.

The Probation Office is recommending no Court action be taken at this time to allow him time to remain engaged in treatment, with increased groups and additional weekly testing. If Price's non-compliance continues, the Court will be notified immediately.

Respectfully submitted,

SUSAN M. SMALLEY, Chief
U.S. Probation Officer

By: ERIN A. DESILVA
U.S. Probation Officer
